Conclusion by Gary McHale**

Ontario is at a Crossroads.

The Government of Ontario can continue down the path where the Charter of Rights and Freedoms is something that is just words on paper or it can decide that those Rights and Freedoms that we all have been told are ours will be upheld by this current Government.

Either the people of Ontario have Rights or they do not. They either have Freedom to speak, Freedom to assemble and the Freedom to hold Governments accountable or they do not.

Mr. McGuinty, it is time to switch paths and end OPP Two Tier Justice in Caledonia and in Ipperwash. Bring and end to repeated OPP intimidation of residents as well as elected officials.

Restore to the people of Caledonia their hope that in a Democracy they have certain inherent rights that no police officer, no police department and no Government institution can simply wipe away.

Since Mr. Fantino has become Commissioner, the residents of Caledonia have seen a pro-active approach to intimidate people into silence. People have been arrested without charges or arrested under false charges. I was kept in jail overnight even though the OPP knew it had no charges against me. People have been defamed by the very police force that is there to serve and protect.

Several lawsuits and police service complaints have been filed directly related to Mr. Fantino's pro-active approach to intimidating people.

It is the people of Caledonia that are paying the price for Mr. McGuinty's politically correct re-election campaign. It is the people of Caledonia that are being denied their Rights and their Freedoms and it is the people of Caledonia that are increasingly becoming the victims of OPP tactics such as a hidden camera.

Bring an end to OPP Two Tier Justice. Restore the Rule of Law in Caledonia and end the occupation of DCE that the Federal Government states is not legal.

Mr. McGuinty you bought the land and you appointed Mr. Fantino. It is time for you to act and replace Mr. Fantino with someone who will end Racial Profiling in Caledonia and Ipperwash.
