

Fantino is nothing short of a school yard bully

Fantino is nothing short of a school yard bully
Fantino is sitting in a quagmire of his own making
Fantino has abandoned the principles of policing and enforcement of the law,
Fantino has attempted to circumvent peoples rights and freedoms by trying to prevent lawful and peaceful assembly, free speech demonstration.

Fantino is a micro managing tantrum throwing despot with delusions of grandeur
Fantino is OUR employee his responsibility is to follow the laws of the land and provide the services he has been paid to provide. Apparently in his self deluded self serving world he believes that this is not the case, he believes that he rules and has authority to fire out edicts and orders to council, law abiding citizens and anyone else he feels he can bully and intimidate. Fantino goes on about how his officers have been hurt during Gary's marches/rallies what-have-you....

HOWEVER not one of his officers have been injured during these rallies unless of course you count embarrassment and dishonour as an injury. Fantino further states that he will publicly hold to account Council and Councillor Grice in particular yet his failure and the two tier policing that is ongoing is apparently just a figment of the general populace and mass medias imagination, the proof of such which can be viewed through countless media reports and eye witness accounts is not considered tangible, he said it does not exist therefore "Mr Omnipotence" has spoken and that is the end of the debate. This little pocket Hitler actually has the gall to threaten our council because they are REPRESENTING their citizens and not the views of Fantino-world. WHO THE fugg DOES HE THINK HE IS?

Councillor Grice has stood up for this community and this county as a councillor is supposed to, he has been honest, forthright and works doggedly to help bring the needs of not only his residents but his county to fruition. Councillor Grice spends more time and energy fighting for what is right and working on building bridges and hope than anyone should expect and this senile cretin positioned as OPP Commissioner is going to threaten him, bully our council and our community because this same Commissioner is a pathetic failure and coward.

Fantino is recommending that the OPP contract not be renewed... really? That is some threat seeing as the OPP organization failed in their duties and have lost the faith and respect of the community at large.... Are you feeling unwelcome and unwanted??? No-s**t Sherlock... What was your first fugging clue.

Take your black and whites, your stetsons and your non-policing policies and get the hell out. There are some truly excellent officers employed by the OPP, they have integrity, honour and a sense of duty and fairness but under the OPP banner they are stifled and twisted into internal pretzels because they are not allowed to do their job, they will have a place in your replacements here because unlike you they know that they are here to enforce the law and honestly serve the community....

Fantino you are a disgrace, you are a dishonour to law enforcement EVERYWHERE you are a pathetic bully who expends more energy showing that yellow stripe down your back and avoiding your sworn duty instead of just doing your job... You failed your officers, you failed this community and for all you other OPP policed communities out there he has and/or will fail you too.

How dare you try to intimidate and persecute people who have more integrity in the footsteps they leave behind than you have in your entire body, mind and soul. You don't like being told your wrong, you don't like the light of truth shone on your failures, you don't like that your legacy is that of the stubborn and staunch stupidity of a mental midget with no honour... well you know what they say in Russia about that don't you....

TOUGHS**T!!
