

McGuinty's Campaign Office Threatens CHCH News

Sept. 13, 2007

We are about to find out just how Biased the Toronto Media is. We all remember how the media spent endless hours covering how controlling Harper (Conservatives) was over the media.

Now we have a clear, direct threat to a Media Outlet by McGuinty's Campaign Office, so let's see whether the media will cover this story to the same degree.

Of course, neither Harper nor anyone in his office actually threatened a Media Outlet, but the media lambasted the Conservatives anyways. We should expect to see the Media screaming Murder now that the Liberals have been caught actually threatening CHCH News.

It is not expected that a single Media Outlet will express any concern that a Liberal Government has threatened the Media. I guess they are too tired from the weeks of endless coverage they gave when Harper's office was just trying to control the order of questions which, by the way, other Prime Ministers had done in the past.

Is the Media Biased against the (evil) Conservative Party?

You will have your answer by the end of today.

To watch CHCH News video report of the threat and what caused McGuinty's people to issue the threat you can watch the video at [CHCH News Site](#) (called Building Delays)

This notice is being sent to over 400 media outlets, reporters, etc.

We'll see how they respond when it is Liberals, not Conservatives, trying to control the Media.
