

A View from Ipperwash

Dear Gary,

I am almost speechless. Did we lose freedom of association and freedom of speech on the weekend? How on earth can Fantino justify the e-mail he sent to council in Caledonia?

So now, just because Fantino doesn't want you in Caledonia, he feels he has a right to intimidate everyone else in this town to do what he says. On what is he basing his subtle innuendo to violence and lawlessness should you go to Caledonia?

I have yet to hear of any problems that you have ever created in going there. Since when is he allowed to coerce OPP to sue an individual who is not breaking any laws? This man needs to be turfed immediately.

Ontario doesn't need a Bully in charge.

We just need someone who will seriously do the job he took the oath of office to do. I take back my comment during his last rant about giving Mr. Fantino a teddy bear because he was acting like a spoiled five year old.

This man needs to be fired and muzzled, and perhaps charged with conduct unbecoming to an officer.

**Sincerely
Mary-Lou**
